CBA India Apprenticeship Program

Overview

With over 17 million customers, Commonwealth Bank of Australia (CBA) is Australia's biggest bank, trusted by generations of families as the safest bank in the country.

We are guided by our purpose – building a brighter future for all.

Our strategy, to build tomorrow's bank today for our customers, reflects our commitment to use the strength of CBA to support our customers, invest in our communities and provide strength and stability for the broader economy.

At **CBA India** we have the brightest talents from technology and banking operations to deliver cutting-edge, innovative, and exceptional experiences for the customers of Australia's number one bank. We believe in promoting a culture of inclusivity, flexibility, and growth opportunities to help our people build their dream career. Together we are building tomorrow's bank today for our customers.

Location: Bengaluru, Karnataka

Supratim Haldar, Data Scientist, Senior Manager, Chief Data and Analytics Office

"As a data scientist with a keen interest in the latest technological trends, at CBA I have found an environment that not only nurtures my passion but also challenges me to push the boundaries of what is possible.

We are constantly exploring new tech trends, from sophisticated machine learning models and natural language processing to predictive modelling and generative AI.

The opportunity to work on such pioneering projects, alongside some of the brightest minds in the industry, has been immensely rewarding. We are not just colleagues; we are a team united by a common goal – to build world-class Data and AI capabilities for the bank."

Paras Bagchi, Senior Product Owner, Technology

"Working at CBA after a career break was a refreshing experience. CBA focused on my skills and potential, making me feel included and valued from day one.

CBA creates a safe and supportive environment for all. Our benefits cater to different life stages, personal choices, and identities – medical policies include dependents with disabilities, insurance coverage for domestic/live-in partners, surrogacy, gender reassignment, adoption and IVF/egg freezing. There's also support for mental health and autism, extensive maternity packages, newborn insurance from Day 1, and cervical vaccinations.

Our employee-led diversity networks advocate for gender equality, age inclusion, cultural diversity, and inclusion for LGBTQIA+ and persons with disabilities, ensuring everyone feels respected and can access the support they need."

Siddarth Jadhvani, Manager, Chief Operations Office

"Joining a new organisation is an important moment in one's career, and CBA made this moment memorable for me.

Right from a personalised note of congratulations to supportive Talent Acquisition and HR partners, every step of my onboarding was meticulous. Conversations with leaders and my hiring manager even before joining made me feel connected to the organisation. Benefits, including top-notch insurance and transport facilities, were available from Day 1.

My first day with guided tours, leader-led inductions, and lunch with my hiring manager, made me feel truly welcome. The highlight was an exclusive meet and greet with the Managing Director.

Everyone ensured I was comfortable and off to a great start in my role."

Chief Operations Office

Chief Operations Office is the heartbeat of the bank, where we reimagine banking operations and customer excellence.

We work across operational disciplines, including the financial crime lifecycle, which includes investigations, payment monitoring and customer due diligence.

With a strong foundation in place, our footprint in India also includes Business, Institutional and Market Operations to strengthen support for Business Banking and Institutional clients. Our Retail Operations team oversees customer experiences in both secured and unsecured product categories, managing the entire loan process from credit decisioning to settlement for CBA and Bankwest brands.

Our customer service team provides round-the-clock support through messaging channels, ensuring seamless client engagement. We are experts at crafting credit risk models and validating credit, AI and market models.

Technology

Our Technology team is building tomorrow's bank today.

Our team of global best technologists harness the rapid acceleration of technology to create resilient, reliable banking experiences that make a real difference for customers. This requires the brightest minds in AI, data and cyber security.

Technology is the driving force in redefining how customers bank. Join us and be part of a powerhouse of niche skills, driving technological advancements and creating a secure, and innovative banking experience.

Chief Data & Analytics Office

Ranked among the top five banks worldwide for AI maturity and #1 in APAC in the 2024 Evident AI Index, we're reimagining banking for our customers with AI-powered solutions and responsible AI for safer, more personalised experiences.

Our Data and Analytics team, the guardians of the bank's data, leverage billions of data points empowering us to make smarter business decisions and gain deeper customer insights.

We manage the delivery of personalised Next Best Conversations to our 17 million customers through our customer engagement platform, which runs over 2000+ machine learning models and processes over 150 billion data points.

We've led the development of CommBank Yello, the largest customer loyalty program in Australia, showcasing our commitment to innovation and customer engagement.

Made up of some of the finest AI experts, data scientists, and data engineers, the team collaborates with leading universities and partners like Microsoft and H2O.ai to pioneer advanced technologies like Gen AI for transformative banking applications.
