

Become our next #FutureStarter

Are you ready to make an impact? ZF is looking for talented individuals to join our team. As a #FutureStarter, you'll have the opportunity to shape the future of mobility. Join us and be part of something extraordinary!

About ZF

ZF is a global technology company that supplies systems for passenger cars, commercial vehicles, and industrial technology, driving the next generation of mobility. Our innovative solutions enable vehicles to see, think, and act across four key technology domains: Vehicle Motion Control, Integrated Safety, Automated Driving, and Electric Mobility.

We offer comprehensive product and software solutions for both established vehicle manufacturers and emerging transport and mobility service providers. ZF electrifies a wide range of vehicle types, contributing to reduced emissions, climate protection, and enhanced safety in mobility.

Web Development Intern (Angular, Node.js & Database Development)

Location

Hyderabad, India (Onsite/Hybrid)

Duration

6 Months (with possible extension based on performance)

About the Role

We are looking for a highly motivated and enthusiastic **Web Development Intern** to join our engineering team. The selected candidate will gain hands-on experience in designing, developing, testing, and maintaining enterprise web applications. The intern will work closely with experienced developers and contribute to real-world

projects involving modern frontend technologies, backend services, and database solutions.

This internship offers an excellent opportunity to learn full-stack web development and build practical industry experience using Angular, Node.js, REST APIs, and database technologies.

What you can look for as an Intern:

- Develop and enhance user interfaces using **AngularJS/Angular**.
- Build and maintain backend services using **Node.js** and Express.js.
- Design, develop, and optimize database schemas, queries, and stored procedures.
- Create and integrate RESTful APIs.
- Troubleshoot and resolve application issues and bugs.

Required Skills

- Basic understanding of **HTML5, CSS3, JavaScript, and TypeScript**.
- Knowledge of **AngularJS or Angular Framework**.
- Familiarity with **Node.js** and backend application development.
- Understanding of relational databases such as **MySQL, PostgreSQL, SQL Server, or Oracle**.

Educational Qualifications

- Currently pursuing or recently completed a Bachelor's or Master's degree in:
 - Computer Science Engineering
 - Information Technology
 - Software Engineering
 - Electronics & Communication Engineering
 - Related technical disciplines

What You Will Gain

- Hands-on experience in full-stack web application development.
- Exposure to enterprise software development practices.
- Opportunity to work on live business applications.

- Mentorship from experienced software engineers.
- Experience working in Agile development teams.
- Opportunity to build technical and professional skills for future careers.

Keywords: Angular, AngularJS, Node.js, JavaScript, TypeScript, Web Development, REST APIs, SQL, MySQL, PostgreSQL, Database Development, Full Stack Development, Internship.
